"Be the change that you want to see in the world"

During my career I had the opportunity to work in **several environment**: from small family business, to worldwide companies. I have travelled a lot around **Europe** in different countries and get in touch with different **people** and different cultures.

During my jobs experience I had the chance to show my way to be efficient, reactive, proactive and **business needs oriented**.

I am able to provide **effective solutions**, at all corporate levels, on **System, Network** and **Application layers** yielding cost efficiency and greater level of customer satisfaction.

Collaboration, communication and the **desire to meet** and **know** other people are my peculiarities that helping me to understand the **business** and **provide** the **right solutions**.
