EXECUTIVE SUMMARY

In my professional journey, I've had the opportunity to work across various business environments, from family-owned ventures to international firms. This has sharpened my abilities in **communication, collaboration, IT management, and problem-solving**. My experience has enabled me to consistently deliver **efficiency** and **attentiveness** to **business requirements**.

I am adept at providing practical solutions that span the spectrum of **corporate operations, improving system, network, application, and security measures**. This approach contributes to **cost-effectiveness** and improved **customer satisfaction**. My involvement in diverse professional scenarios, also in Mergers and Acquisitions, has provided me with the skills necessary for managing intricate business changes.

My leading skills are:

- IT Service Management
- IT Infrastructure Management & Design (*Cloud, Datacenter, Virtual Infrastructure, Network, SD-WAN, Data Protection and Backup, ...*)
- Modern Workplace Management & Design
- Collaboration & Communication Solutions
- Modern Security solution based on Identity and XDR solutions
- IT Security policy definition & implementation
- M&A IT infrastructure project, planning and execution
- Team Management and Coordination
- IT Project Plan and Management
- Problem Solving
- Coaching
- Microsoft 365 Platform
- Support to Design, Formalization, Plan and Testing DR and BCP
- IT Outsourcers Management
 - SLA
 - KPI
 - Continues Improvement
 - Security Check
- IT and End Users Policies and Procedure definitions
- Operation management
 - Change and incident management
- Software and script development

Professional Coach – course and certificate approved by ICF (ACSTH) and by AICP (2019)

Points of You – L1 Explorer (2024)

ITIL® 4 Foundation (2024)

CAREER

Corporate Infrastructure Manager – June 2021 - Present

Corcym Srl – www.corcym.com

Via Giovanni Spadolini, 7, 20141, Milano (Italy)

Corcym is a global medical-device company focused on the structural heart area.

The company was formed in 2021 as a divest of LivaNova heart-valves business unit, acquired by Gyrus Capital.

As Corporate Infrastructure Manager, I'm coordinating internal teams and global partners to ensure the delivery of a world class service for the business.

I'm responsible for the global infrastructure, for the definition of strategy and new solutions adoption following business needs to ensure that we are delivering innovative solutions.

The Corcym IT Infrastructure, based on all the latest modern technologies, is founded on four pillars to guarantee agility, responsiveness, and security for all business needs:

1. The corporate infrastructure is leveraging on cloud platforms (AWS and Azure) to deliver fully scalable infrastructure with an elevated level of resilience.
2. The network layer is founded on SD-WAN and NGFW to provide high performance with the proper security level.
3. The workplace is based on the Modern Management paradigm to provide access to all Corcym services from every location in the world.
4. Cybersecurity is based on different layers: the foundation is leverage on structured policies and procedure in line with ISO27001, the technology layers is built on advanced XDR solutions, identity protection systems and NGFW.

Finally, I guarantee the day-by-day business continuity in Corcym production sites (Saluggia and Vancouver) supporting all the production needs providing every day the proper solution based on the latest technologies available on the market.

Manager – February 2021 – May 2021

Deloitte Consulting SRL - www.deloitte.com
Via Tortona, 33, 20144 Milano (Italy)

Deloitte is one of the Big Four accounting organizations and the largest professional services network in the world by revenue and number of professionals, with headquarters in London, England

I am one of the managers involved in the constitution of Corcym (formerly the heart valves business unit of Livanova). In this context, I am acting as IT Infrastructure Manager for Corcym. I am responsible for the implementation of new Corcym infrastructure (Microsoft 365 platform, Cloud and On-Premise's infrastructure, Service Desk, Workplace management, Network, Security, ...) and the migration of all the data and services from Livanova to Corcym. All the infrastructure is configured following the new paradigm of "Modern Management": all the services are available everywhere in the world through an internet connection. Furthermore, leverage on cloud infrastructure (both AWS and Azure) a fully scalable infrastructure (in term of resources and cost) is configured for Corcym.

Consultant – March 2020 – January 2021

Accenture SPA - www.accenture.com
Via Quadrio, 17, 20154 Milano (Italy)

Accenture is one of the biggest consultant enterprise companies in the world specialized in strategy, technology, innovation & outsourcing services.

My roles are Project Manager, Technical entry point and Resources' coordinator in "Workplace Transformation Services" projects. I worked on Windows 10 migration and adoption program for one financial customer with 90000 devices spread around the world and on migration to Microsoft 365 & Office 365 platform.

EMEA IT System Engineer & IT Manager EMEA Subsidiaries – April 2016 – February 2020

Livanova Site Management Srl – Livanova - www.livanova.com
Via Benigno Crespi, 17, 20159 Milano (Italy)

Livanova is a worldwide company leader in medical technologies. The company was formed in 2015 by a merger between Houston, TX-based Cyberonics, Inc. and Milan, Italy-based Sorin S.p.a. The company trades on NASDAQ.

My principal roles were:

- Deputy EMEA Manager, IT Infrastructure & Operation
 - Working with my boss (EMEA Manager, IT Infrastructure & Operation) we managed all the EMEA infrastructure from all the standpoints.
 - I was involved on the decision table for strategy and management regarding EMEA and Worldwide infrastructure.
- European responsible for Microsoft Systems, Cloud, Mobile Devices and Mobile Management Solution
 - I coordinated and executed Installation, Configuration, Management, Support, Security and SOP definition for these systems.
- IT Project Manager and IT Project Consultant
 - Project Manager for IT infrastructure projects: new infrastructures implementation, backup solutions, network infrastructures, AD & Exchange migration and consolidation, Security Solutions & Windows 10 migration.
 - Project Consultant for IT Infrastructure and Security
- IT Manager EMEA Subsidiaries
 - Users Escalation Point
 - Point of contact between Service Desk and Users
 - Review and Approval user's requests
 - Address users' requests to the right Team for support or resolution

My main activities included:

- Managing and coordinating the IT outsourcers (*Microsoft and Exchange System, VMware and Network Infrastructure, Mobile Devices Management, End User and Workplace Management*)

- IT Project plan and management (*Active Directory and Exchange migration and consolidation, Windows 10 Migration, Office 365 Cloud Solution, EMEA wide Wi-Fi Solution, EMEA Backup Solution, EMEA Monitoring Solution, NG-FW EMEA Solution, Video Conference System, Contact Center Solution, MDM worldwide Solution*)
- SLA and KPI management
- Designing solutions for new infrastructures and new services using the latest technologies and scouting for new solutions
- Providing guidelines and support on:
 - Data Center Design
 - VMware Infrastructure Design
 - Network Design
 - Application Design and Support
 - Mobile Devices Management and Support
 - Workplace Support
 - Security
- Coordinating the management of the Local Infrastructure Team
- Supporting Corporate Business and proposing solutions for business needs

System Engineer – July 2013 – March 2016

Livanova Site Management Srl (formerly Sorin Site Management Srl) – Livanova - www.livanova.com
Via Benigno Crespi, 17, 20159 Milano (Italy)

I worked in team with the IT Europe Infrastructure Manager and I managed different projects, and solve problems, at European level. During 2015, Livanova was formed by merger between Sorin Group and Cyberonics Inc. The merger has been a great opportunity for me to face with all the activities IT infrastructure related.

I was the IT Infrastructure referee for CRM Business Unit: in this role I was involved in the definition of all IT projects and activities related to the business unit in order to provide solutions to various needs.

My main activities include, managing and coordinating the IT outsourcers, IT Project plan and management, SLA and KPI management, designing solutions for new infrastructures and new services using the latest technologies, solutions scouting, providing guidelines and support on Data Center Design including VMware Infrastructure, network and application, Mobile Devices Management and Support, Workplace Support, Security, coordinating the management of the local infrastructure team, supporting Corporate Business and proposing solutions for business needs.

Freelancer – IT Consultant – January 2013 – June 2013

IT consultant for different companies that work in various area (Finance, Debt Collection, Health, Sport Clubs).

My activities included the analysis, definition and delivery of different IT solutions for Infrastructure, Network and Software. I also had a role in the definition of the IT strategy.

System Administrator – February 2012 – December 2012

Dinamix Solution Srl – Omniatel Spa Group – www.omniatel.it
Via Cristoforo Colombo, 39, 20090 Trezzano sul Naviglio - Milano (Italy)

Dinamix is a company owned by Omniatel Spa Group. Omniatel core businesses are the Debt Collection and Outsourcing services. Omniatel IT Infrastructure was based on a virtual Data Center with a Virtual PBX for 80 operators. The main activities were management, support / development of the IT Infrastructure, and development of custom software as well as Helpdesk.

IT Specialist – August 2011 – February 2012

Locatech Srl – www.locatech.it
Via Dante Alighieri, 7/15, 20080 Basiglio – Milano (Italy)

Locatech is a renting and leasing company for IT equipment. Locatech has a custom ERP based on Filemaker. My activities were the development of the ERP following the business needs, the research and implementation of new IT solutions and the management of PCs and Servers.

PERSONAL INTERESTS

I am interested in science topics such as: Information Technology, astronomy, physics, chemistry, biology, electronics, and robotics.

I have also been interested since some years in self-development, NPL and Coaching skills. Traveling has always been one of my biggest passions and photography has grown together.
